**TEXAMERICAS CENTER
BOWIE COUNTY, TEXAS
INVESTMENT POLICY**

INTRODUCTION

The purpose of this document is to set forth specific investment policy and strategy guidelines for the TexAmericas Center (the “Center”) in order to achieve the goals of safety, liquidity, public trust, and yield for all investment activity. This Policy serves to satisfy the statutory requirements, specifically the Public Funds Investment Act (the “PFIA”) and Public Funds Collateral Act (the “PFCA”), Government Code Chapters 2256 and Chapter 2257, respectively, to define, adopt, and review a formal investment strategy and policy.

INVESTMENT STRATEGY

The Center maintains portfolios, which utilize four specific investment strategy considerations, designed to address the unique characteristics of the fund groups represented in the portfolios:

A. OPERATING FUNDS

Investment strategies for operating funds and combined pools containing operating funds have, as their primary objective, to assure that anticipated cash flows are matched with adequate investment liquidity. The secondary objective is to create a portfolio structure which will experience minimal volatility during economic cycles. This may be accomplished by purchasing high quality, short-to-medium term investments, which will complement each other in a laddered or barbell maturity structure. The dollar weighted average maturity of 365 days or less will be calculated using the stated final maturity date of each investment.

B. DEBT SERVICE FUNDS

Investment strategies for debt service funds shall have as the primary objective the assurance of investment liquidity adequate to cover the debt service obligation on the required payment date. Investments shall not have a stated final maturity date which exceeds the next unfunded debt service payment date.

C. DEBT SERVICE RESERVE FUNDS

Investment strategies for debt service reserve funds shall have as the primary objective the ability to generate a dependable revenue stream to the appropriate debt service fund from investments with a low degree of volatility. Investments should be of high quality and, except as may be required by the bond resolution specific to an individual issue, short-to-intermediate term maturities.

D. SPECIAL PROJECT/SPECIAL PURPOSE FUNDS

Investment strategies for special projects or special purpose fund portfolios will have as their primary objective to assure that anticipated cash flows are matched with adequate investment liquidity. If appropriate, these portfolios should include at least 10% in cash equivalent investments to allow for flexibility and unanticipated project outlays. The stated final maturity dates of investments held should not exceed the estimated project completion or purpose date.

INVESTMENT POLICY

A. SCOPE

This Investment Policy applies to all financial assets of the Center. These funds are accounted for in the Center's Audited Financial Reports and include: General Fund and all other funds.

There are no pension funds under management by the Center.

B. OBJECTIVES

The Center shall manage and invest its cash with four objectives, listed in order of priority: Safety, Liquidity, Public Trust, and Yield. The safety of the principal invested always remains the primary objective. All investments shall be designed and managed in a manner responsive to public trust and consistent with State and Local law.

The Center shall maintain a cash management program, which includes collection of accounts receivable, vendor payment in accordance with invoice terms, and prudent investment of available cash. Cash management is defined as the process of managing monies in order to insure maximum cash availability and optimize yield on short-term investment of pooled idle cash.

- a. *Safety.* The primary objective of the Center's investment activity is the preservation of capital in the overall portfolio.
- b. *Liquidity.* The Center's investment portfolio shall be structured such that the Center is able to meet all obligations in a timely manner. This shall be achieved by matching investment maturities with forecasted cash flow requirements and by maintaining a minimum portion of the portfolio in cash equivalent investments.
- c. *Public Trust.* All participants in the Center's investment process shall seek to act responsibly as custodians of public trust. Investment Officers shall avoid any transaction which might impair public confidence in the Center's ability to administer effectively.
- d. *Yield.* The Center's cash management portfolio shall be designed with the objective of meeting or exceeding the average rate of return on U.S. Treasury Bills at a maturity level comparable to the Center's weighted average maturity in days. The investment program shall seek to augment returns above this threshold consistent with risk limitations identified herein and prudent investment policies. Weighted average yield to maturity shall be the performance standard calculated for performance comparison.

C. RESPONSIBILITY AND CONTROL

- a. *Investment Committee.* An Investment Committee, consisting of the Chairman of the Board of Directors, Treasurer of the Board of Directors, Chief Executive Officer (“CEO”), Outside Accountant, and other appointed members of the Finance Committee of the Board Directors, shall meet routinely to determine operational strategies and to monitor results. The Investment Committee shall include in its deliberation such topics as the following: performance reports, economic outlook, portfolio diversification, maturity structure, potential risk, authorized brokers and dealers (including the financial strength and service performance of the firm), independent sources of investment training, and the target rate of return on the investment portfolio.
- b. *Delegation of Authority and Training.* Authority to manage the Center’s investment program is derived from Chapter 3503, Texas Special District Local Laws Code and the PFIA. The CEO and Controller are designated as Investment Officers of the Center and responsible for investment decisions and activities. The CEO will establish written procedures for the operation of the investment program, consistent with this Investment Policy, as may be necessary. Each Investment Officer shall attend at least one training session relating to the Officer’s responsibility under the PFIA within 12 months after assuming duties accumulating a minimum of ten (10) hours of instruction. Each Investment Officer shall also attend at least one training session not less than once in a two-year period that begins on the first day of the Center’s fiscal year and consists of the two consecutive fiscal years after that date accumulating a minimum of ten (10) hours of instruction. Training related to investment responsibilities under the PFIA is required for each Investment Officer. Such training shall be from an independent source approved by the Investment Committee.
- c. *Internal Controls.* The CEO or his designee is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the Center are protected from loss, theft or misuse. The internal control structure shall be designed to provide reasonable assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

Accordingly, the CEO shall establish a process for annual independent review by an external auditor in conjunction with the annual audit to assure compliance with policies and procedures. The results of this review shall be reported to the Board of Directors by that auditor. The internal controls shall address the following points:

- i. Control of collusion.
- ii. Separation of transaction authority from accounting and record keeping.
- iii. Custodial safekeeping.
- iv. Avoidance of physical delivery securities.
- v. Clear delegation of authority to subordinate staff members.
- vi. Written confirmation for telephone (voice) transactions for investments and wire transfers.

- d. *Prudence.* The standard of prudence to be applied by the Investment Officer shall be the “prudent person” rule, which states: “Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital, as well as the probable income to be derived.” In determining whether an Investment Officer has exercised prudence with respect to an investment decision, the determination shall be made taking into consideration:
 - i. The investment of all funds, or funds under the Center’s control, over which the Officer had responsibility rather than a consideration as to the prudence of a single investment.
 - ii. Whether the investment decision was consistent with the written Investment Policy of the Center.
 - iii. The Investment Officer, acting in accordance with written procedures and exercising due diligence, shall immediately report deviations to a specific issuer’s credit risk or market price changes to the Investment Committee.
- e. *Ethics and Conflicts of Interest.* Center staff involved in the investment process shall refrain from personal business activity that could conflict with proper execution of the investment program, or which could impair the ability to make impartial investment decisions. Center staff shall disclose to the CEO any material financial interest in financial institutions that conduct business with the Center and they shall further disclose positions that could be related to the performance of the Center’s portfolio. Center staff shall subordinate their personal financial transactions to those of the Center, particularly with regard to timing of purchases and sales.

An Investment Officer who has a personal business relationship with an organization seeking to sell an investment to the Center shall file a statement disclosing that personal business interest. An Investment Officer who is related within the second degree by affinity or consanguinity to an individual seeking to sell an investment to the Center shall file a statement disclosing that relationship. A statement required under this subsection must be filed with the Texas Ethics Commission and the Board of Directors.

D. REPORTING

- a. *Quarterly Reporting.* The CEO or his designee shall present a quarterly report on the investment program and investment activity. This report may be presented as a component of the quarter-end report to the Board of Directors.
- b. *Annual Report.* The CEO or his designee shall present an annual report on the investment program and investment activity. This report may be presented as a component of the fourth quarter report to the Board of Directors.
- c. *Methods.* The quarterly investment report shall include a succinct management summary that provides a clear picture of the status of the current investment portfolio and transactions made over the last quarter. This management summary will be prepared in

a manner which will allow the Center to ascertain whether investment activities during the reporting period have conformed to the Investment Policy. The report will be prepared in compliance with the PFIA. The report will be provided to the Investment Committee and the Board of Directors. The report will include, at a minimum, the following:

- i. A listing of individual investments held at the end of the reporting period. This list will include the name of the fund or pooled group fund for which each individual investment was acquired;
- ii. Unrealized gains or losses resulting from appreciation or depreciation by listing the beginning and ending book and market value of securities for the period;
- iii. Market values and current credit ratings (for investments required by the PFIA to maintain a minimum rating) shall be obtained from financial institutions, rating agencies, portfolio reporting services, or other sources independent from the investment provider or issuer;
- iv. Fully accrued interest for the reporting period;
- v. Average weighted yield to maturity of portfolio on Center investments as compared to applicable benchmarks;
- vi. Listing of investments by maturity date;
- vii. The percentage of the total portfolio which each type of investment represents; and
- viii. Statement of compliance of the Center's investment portfolio with State Law and the investment strategy and policy approved by the Board of Directors signed by the Investment Officers.

In conjunction with the annual audit, and as a part of the annual audit report, a formal annual review of these reports will be performed by an independent auditor with the results reported to the Board of Directors.

E. INVESTMENT PORTFOLIO

- a. *Active Portfolio Management.* The Investment Committee will, periodically, evaluate the status of the portfolio and make appropriate adjustments.
- b. *Performance.* It is the Center's policy to purchase investments with maturity dates coinciding with cash flow requirements. Using this strategy, the Center attempts to purchase the highest yielding allowable investments available at the time of purchase. The basis used to determine whether market yields are being achieved is the average rate of return on U.S. Treasury Bills for a comparable term.
- c. *Investments.* Assets of the Center may be invested in the following instruments; provided, however, that at no time shall the Center purchase any instrument or security not authorized for investment under the PFIA, as the PFIA may from time to time be amended. The Center is not required to liquidate investments that were authorized investments at the time of purchase.
 - i. Authorized

1. U.S. Obligations. Obligations issued, guaranteed, or insured by the United States of America, its agencies and instrumentalities including the Federal Home Loan Banks, which have a liquid market with a readily determinable market value.
2. State of Texas Obligations. Direct obligations of the State of Texas, its agencies, and instrumentalities.
3. Miscellaneous Government Obligations. Other obligations, the principal and interest of which are unconditionally guaranteed or insured by, or backed by the full faith and credit of this State or the United States or their respective agencies and instrumentalities, including the Federal Deposit Insurance Corporation.
4. Miscellaneous Rated Obligations. Obligations of the States, agencies thereof, Counties, Cities, and other political subdivision of any state having been rated as investment quality by a nationally recognized investment rating firm, and having received a rating of not less than "A" or its equivalent.
5. Financial Institution Deposits. Financial Institution Deposits of state and national banks, savings banks, or state or federal credit unions that meet the requirements of the PFIA and this Policy.
6. Repurchase Agreements. Fully collateralized direct repurchase agreements with a defined termination date secured by a combination of cash and obligations of the United States or its agencies and instrumentalities. Securities purchased must be pledged to the Center, held in the Center's account, and deposited at the time of the investment with the Center, and placed through a primary government securities dealer, as defined by the Federal Reserve, or a financial institution doing business in Texas. Such agreements may include direct security repurchase agreements and reverse security repurchase agreements with terms of 90 days or less after the delivery date. Funds received by the Center under a reverse security agreement shall be used to acquire additional authorized investments, but those investments must mature no later than the expiration date stated in the reverse security repurchase agreement.
7. Investment Pools. Investment pools, if the pool is specifically approved by the Board of Directors and the pool invests only in investments authorized by the PFIA. A pool must be continuously rated no lower than AAA or AAA-m or at an equivalent rating by at least one nationally recognized rating service, and must comply with the requirements of the PFIA.
8. Money Market Mutual Funds. "Money Market" mutual funds that have a rating of AAA by least one nationally recognized rating firm and are "no-load" funds. A "money market" mutual fund must maintain a \$1.0000

share value and include only short-term, highly liquid, and relatively low risk debt instruments. The Fund must be registered with and regulated by the Securities and Exchange Commission.

- a. Any funds are required to provide the Center with a prospectus and other information required by the Securities Exchange Act of 1934 or the Investment Company Act of 1940.
- b. The Center cannot own more than 10% of any mutual fund's total assets.

9. Guaranteed Investment Contracts. Guaranteed Investment contracts are allowed investments for bond proceeds only, if such contracts have a defined termination date, are secured by obligations of the United States of America, its agencies and instrumentalities approved by the PFIA, in an amount equal to 102% of the investment balances, if security is pledged to the Center and deposited with the Center or a third party, and if the investment term is limited to five years from the date of bond issuance. In addition, specific provisions under the PFIA Section 2256.015(c) 1-5 must be met to allow investment in these contracts.

ii. Not Authorized

The Center's authorized investment options are more restrictive than those allowed by State law. State law specifically prohibits investment in the following investment securities, or investment in specific instruments at levels higher than those listed below:

1. Mortgage Backed Securities Paying No Principal. Obligations whose payment represents the coupon payments on the outstanding principal balance of the underlying mortgage-backed security collateral and pays no principal.
2. Mortgage Backed Securities Paying No Interest. Obligations whose payment represents the principal stream of cash flow from the underlying mortgage-backed security collateral and bears no interest.
3. CMOs with Maturities Greater than 10 Years. Collateralized mortgage obligations that have a stated final maturity date of greater than 10 years.
4. CMOs whose rate is determined by Inverted Index. Collateralized mortgage obligations the interest rate of which is determined by an index that adjusts opposite to the changes in a market index.

d. *Holding Period.* The Center intends to match the holding periods of investment funds with liquidity needs of the Center. In no case will the average maturity of investments of the Center's operating funds exceed one year. The maximum final stated maturity of any investment shall not exceed five years.

e. *Risk and Diversification.* The Center recognizes that investment risks can result from issuer defaults, market price changes or various technical complications leading to temporary illiquidity. Risk is controlled through portfolio diversification which shall be achieved by the following general guidelines:

- i. Risk of issuer default is controlled by limiting investments to those instruments allowed by the PFIA, which are described herein.
- ii. Risk of market price changes shall be controlled by avoiding over-concentration of assets in a specific maturity sector, limitation of average maturity of operating funds investments to one year, and avoidance of over-concentration of assets in specific instruments.
- iii. Risk of illiquidity due to technical complications shall be controlled by the selection of securities dealers as described herein.
- iv. At a minimum, diversification standards by investment type and issuer shall be:

Investment Type	Percentage of Total Investments
U.S. Government Agencies and Instrumentalities	Not To Exceed 80%
Fully Insured or Collateralized Financial Institution Deposits	Not To Exceed 100%
Repurchase Agreements (Ex. Bond Proceeds)	Not To Exceed 50%
Money Market Operating Funds	Not To Exceed 100%
Local Government Investment Pools – Liquidity Pool – Constant Dollar	Not To Exceed 100%
Local Government Investment Pools – Fixed Rate/Fixed Maturity Pools	Not To Exceed 80%

F. SELECTION OF FINANCIAL INSTITUTIONS AND BROKER/DEALERS

- a. Financial Institutions. A Primary Depository shall be selected through the Center’s banking services procurement process, which may include a formal request for proposal (RFP), or direct negotiation incorporating current market conditions. In selecting a primary depository, the credit worthiness of institutions shall be considered, and the CEO shall conduct a comprehensive review of prospective depositories’ credit characteristics and financial history.

Banks seeking to establish eligibility for the Center’s primary depository shall submit for review annual financial statements, evidence of federal insurance and other information as required by the CEO.

Financial institutions serving as Center depositories will be required to sign a Depository Agreement (Agreement) with the Center and a Custodial Agreement with the Center’s custodian in compliance with Federal regulations. The Agreement shall require compliance with the PFIA and this Investment Policy, establish an independent custodian for all pledged collateral, define the eligible collateral and the Center’s rights to the collateral in case of default, bankruptcy, or closing, and establish a perfected security interest in compliance with Federal and State regulations, and specifically:

- i. the Agreement must be in writing;
- ii. the Agreement must be approved by resolution of the Board or the Designated Committee of the Depository and a copy of the meeting minutes or resolution reference must be delivered to the Center;
- iii. the pledging of collateral shall be a contemporaneous and continuous part of the Agreement; and
- iv. the Agreement must be part of the Depository's "official record" continuously since its execution.

A portion of both the Agreements shall define the Center's rights to the collateral in case of default, bankruptcy, or closing and shall establish a perfected security interest in compliance with Federal and State regulations.

- b. *Broker/Dealers.* For broker/dealers, the Center shall select only those dealers reporting to the Market Reports Division of the Federal Reserve Board of New York, also known as the "Primary Government Security Dealers", unless an analysis reveals that other firms are adequately financed to conduct public business. All broker/dealers shall provide the Center with references from public entities which they are currently serving. The Investment Committee shall adopt and annually review a list of qualified broker/dealers authorized to engage in investment transactions with the Center. All security transactions will be competitively bid, as evidenced by written quotes documented from at least two qualified dealers or institutions.

All broker/dealers who desire to become qualified bidders for investment transactions must supply the following as appropriate:

- i. audited financial statements;
- ii. proof of Financial Industry Regulatory Authority (FINRA) registration;
- iii. proof of state registration;
- iv. completed broker/dealer questionnaire;

- c. *Business Organization Certification.* For local government investment pools and discretionary investment management firms (a "business organization" as defined by the PFIA), the Center shall provide a written copy of this Policy and the business organization shall provide a certification as required by the PFIA and acceptable to the Center.

G. SAFEKEEPING AND CUSTODY

- a. *Insurance or Collateral.* All deposits and investments of Center funds other than direct purchases of securities, pools, or mutual funds shall be secured as required by the PFCA. With the exception of deposits secured with irrevocable letters of credit at 100% of amount, all deposits of funds with financial institutions shall be collateralized with marketable securities at 102% of market value of principal and accrued interest on the deposits or investments, less an amount insured by the FDIC. Evidence of the pledged collateral shall be maintained by the CEO or a third party financial institution. Repurchase agreements shall be documented by a specific agreement noting the collateral pledge in

each agreement. Collateral shall be reviewed at least monthly to assure that the market value of the pledged securities is adequate.

- b. *Custodial Agreement.* Collateral pledged to secure deposits of the Center shall be held by a custodial institution in accordance with a Custodial Agreement which clearly defines the procedural steps for gaining access to the collateral should the Center determine that the Center's funds are in jeopardy. The custodial institution, or custodian, shall be the Federal Reserve Bank, Federal Home Loan Bank, or an institution not affiliated with the firm pledging the collateral that meets the requirements of the PFCFA. When applicable, the Custodial Agreement shall include the signatures of authorized representatives of the Center, the firm pledging the collateral, and the custodian.
- c. *Collateral Defined.* The Center shall accept only the following:
 - i. FDIC insurance coverage.
 - ii. A bond, certificate of indebtedness, note, or other evidence of indebtedness that is guaranteed as to the principal and interest by the United States, or its agencies and instrumentalities.
 - iii. Obligations, the principal and interest on which are unconditionally guaranteed or insured by the State of Texas.
 - iv. A bond of the State of Texas or of a county, authority or other political subdivision of the State of Texas having been rated as investment grade (investment rating no less than "A" or its equivalent) by a nationally recognized rating agency, with a remaining maturity of ten (10) years or less.
 - v. The use of a letter of credit issued to the Center by the Federal Home Loan Bank may be considered by the Center to meet the required bank depository collateral requirements.

The Center reserves the right to accept or reject any form of collateral or require additional collateral pledge, at its sole discretion.

- d. *Subject to Audit.* All collateral shall be subject to inspection and audit by the CEO or the Center's independent auditors.
- e. *Delivery vs. Payment.* Securities shall be purchased using the delivery versus payment method. That is, funds shall not be wired or paid until verification has been made that the correct security was received by the Center's Safekeeping Agent. The security shall be held in the name of the Center or held on behalf of the Center. The Safekeeping Agent's records shall assure the notation of the Center's ownership of or explicit claim on the securities. The original copy of all safekeeping receipts shall be delivered to the Center.

H. INVESTMENT POLICY ADOPTION

The Center's Investment Policy shall be adopted by resolution of the Board of Directors. The Investment Committee shall review the Policy for effectiveness on an annual basis and any modifications will be recommended for approval to the Board of Directors. The Board of Directors shall review and adopt by resolution these investment policies and strategies not less than

annually. The resolution shall include a record of changes made to either the Investment Policy or strategy.

(A) a list of the types of authorized investments in which the investing entity's funds may be invested;

(B) the maximum allowable stated maturity of any individual investment owned by the entity;

(C) for pooled fund groups, the maximum dollar-weighted average maturity allowed based on the stated maturity date for the portfolio;

(D) methods to monitor the market price of investments acquired with public funds;

(E) a requirement for settlement of all transactions, except investment pool funds and mutual funds, on a delivery versus payment basis; and

(F) procedures to monitor rating changes in investments acquired with public funds and the liquidation of such investments consistent with the provisions of Section [2256.021](#).

(c) The investment policies may provide that bids for certificates of deposit be solicited:

(1) orally;

(2) in writing;

(3) electronically; or

(4) in any combination of those methods.

(d) As an integral part of an investment policy, the governing body shall adopt a separate written investment strategy for each of the funds or group of funds under its control. Each investment strategy must describe the investment objectives for the particular fund using the following priorities in order of importance:

(1) understanding of the suitability of the investment to the financial requirements of the entity;

(2) preservation and safety of principal;

- (3) liquidity;
- (4) marketability of the investment if the need arises to liquidate the investment before maturity;
- (5) diversification of the investment portfolio; and
- (6) yield.

(e) The governing body of an investing entity shall review its investment policy and investment strategies not less than annually. The governing body shall adopt a written instrument by rule, order, ordinance, or resolution stating that it has reviewed the investment policy and investment strategies and that the written instrument so adopted shall record any changes made to either the investment policy or investment strategies.

(f) Each investing entity shall designate, by rule, order, ordinance, or resolution, as appropriate, one or more officers or employees of the state agency, local government, or investment pool as investment officer to be responsible for the investment of its funds consistent with the investment policy adopted by the entity. If the governing body of an investing entity has contracted with another investing entity to invest its funds, the investment officer of the other investing entity is considered to be the investment officer of the first investing entity for purposes of this chapter. Authority granted to a person to invest an entity's funds is effective until rescinded by the investing entity, until the expiration of the officer's term or the termination of the person's employment by the investing entity, or if an investment management firm, until the expiration of the contract with the investing entity. In the administration of the duties of an investment officer, the person designated as investment officer shall exercise the judgment and care, under prevailing circumstances, that a prudent person would exercise in the management of the person's own affairs, but the governing body of the investing entity retains ultimate responsibility as fiduciaries of the assets of the entity. Unless authorized by law, a person may not deposit, withdraw, transfer, or manage in any other manner the funds of the investing entity.

(g) Subsection (f) does not apply to a state agency, local government, or investment pool for which an officer of the entity is assigned by law the function of investing its funds.

Text of subsec. (h) as amended by Acts 1997, 75th Leg., ch. 685,
Sec. 1

(h) An officer or employee of a commission created under Chapter 391, Local Government Code, is ineligible to be an investment officer for the commission under Subsection (f) if the officer or employee is an investment officer designated under Subsection (f) for another local government.

Text of subsec. (h) as amended by Acts 1997, 75th Leg., ch.
1421, Sec. 3

(h) An officer or employee of a commission created under Chapter 391, Local Government Code, is ineligible to be designated as an investment officer under Subsection (f) for any investing entity other than for that commission.

(i) An investment officer of an entity who has a personal business relationship with a business organization offering to engage in an investment transaction with the entity shall file a statement disclosing that personal business interest. An investment officer who is related within the second degree by affinity or consanguinity, as determined under Chapter 573, to an individual seeking to sell an investment to the investment officer's entity shall file a statement disclosing that relationship. A statement required under this subsection must be filed with the Texas Ethics Commission and the governing body of the entity. For purposes of this subsection, an investment officer has a personal business relationship with a business organization if:

(1) the investment officer owns 10 percent or more of the voting stock or shares of the business organization or owns \$5,000 or more of the fair market value of the business organization;

(2) funds received by the investment officer from the business organization exceed 10 percent of the investment officer's gross income for the previous year; or

(3) the investment officer has acquired from the business organization during the previous year investments with a book value of \$2,500 or more for the personal account of the investment officer.

(j) The governing body of an investing entity may specify in its investment policy that any investment authorized by this chapter is not suitable.

(k) A written copy of the investment policy shall be presented to any person offering to engage in an investment transaction with an investing entity or to an investment management firm under contract with an investing entity to invest or manage the entity's investment portfolio. For purposes of this subsection, a business organization includes investment pools and an investment management firm under contract with an investing entity to invest or manage the entity's investment portfolio. Nothing in this subsection relieves the investing entity of the responsibility for monitoring the investments made by the investing entity to determine that they are in compliance with the investment policy. The qualified representative of the business organization offering to engage in an investment transaction with an investing entity shall execute a written instrument in a form acceptable to the investing entity and the business organization substantially to the effect that the business organization has:

(1) received and reviewed the investment policy of the entity; and

(2) acknowledged that the business organization has implemented reasonable procedures and controls in an effort to

preclude investment transactions conducted between the entity and the organization that are not authorized by the entity's investment policy, except to the extent that this authorization is dependent on an analysis of the makeup of the entity's entire portfolio or requires an interpretation of subjective investment standards.

(l) The investment officer of an entity may not acquire or otherwise obtain any authorized investment described in the investment policy of the investing entity from a person who has not delivered to the entity the instrument required by Subsection (k).

(m) An investing entity other than a state agency, in conjunction with its annual financial audit, shall perform a compliance audit of management controls on investments and adherence to the entity's established investment policies.

(n) Except as provided by Subsection (o), at least once every two years a state agency shall arrange for a compliance audit of management controls on investments and adherence to the agency's established investment policies. The compliance audit shall be performed by the agency's internal auditor or by a private auditor employed in the manner provided by Section [321.020](#). Not later than January 1 of each even-numbered year a state agency shall report the results of the most recent audit performed under this subsection to the state auditor. Subject to a risk assessment and to the legislative audit committee's approval of including a review by the state auditor in the audit plan under Section [321.013](#), the state auditor may review information provided under this section. If review by the state auditor is approved by the legislative audit committee, the state auditor may, based on its review, require a state agency to also report to the state auditor other information the state auditor determines necessary to assess compliance with laws and policies applicable to state agency investments. A report under this subsection shall be prepared in a manner the state auditor prescribes.

(o) The audit requirements of Subsection (n) do not apply to assets of a state agency that are invested by the comptroller under Section [404.024](#).

Investment of funds shall be governed by the following investment objectives, in order of priority:

- (1) preservation and safety of principal;
- (2) liquidity; and
- (3) yield.

(b) In determining whether an investment officer has exercised prudence with respect to an investment decision, the determination shall be made taking into consideration:

(1) the investment of all funds, or funds under the entity's control, over which the officer had responsibility rather than a consideration as to the prudence of a single investment; and

(2) whether the investment decision was consistent with the written investment policy of the entity.

Sec. 2257.102. POOLED COLLATERAL PROGRAM. (a) As an alternative to collateralization under Subchapter B, the comptroller by rule shall establish a program for centralized pooled collateralization of deposits of public funds and for monitoring collateral maintained by participating institutions. The rules must provide that deposits of public funds of a county are not eligible for collateralization under the program. The comptroller shall provide for a separate collateral pool for any single participating institution's deposits of public funds.

(b) Under the pooled collateral program, the collateral of a participating institution pledged for a public deposit may not be combined with, cross-collateralized with, aggregated with, or pledged to another participating institution's collateral pools for pledging purposes.

(c) A participating institution may pledge its pooled securities to more than one participating depositor under contract with that participating institution.

(d) The pooled collateral program must provide for:

- (1) participation in the program by a participating institution and each affected public entity to be voluntary;
- (2) uniform procedures for processing all collateral transactions that are subject to an approved security agreement described by Section 2257.103; and

For purposes of determining whether collateral is sufficient to secure a deposit of public funds, Section 2257.022(b) does not apply to a deposit of public funds held by the participating institution and collateralized under this subchapter.

(b) A participating institution shall provide for the collateral securities to be held by a custodian trustee, on behalf of the participating institution, in trust for the benefit of the pooled collateral program. A custodian trustee must qualify as a custodian under Section 2257.041.

(c) The comptroller by rule shall regulate a custodian trustee under the pooled collateral program in the manner provided by Subchapter C to the extent practicable. The rules must ensure that a custodian trustee depository does not own, is

not owned by, and is independent of the financial institution or institutions for which it holds the securities in trust, except that the rules must allow the following to be a custodian trustee:

- (1) a federal reserve bank;
- (2) a banker's bank, as defined by Section 34.105, Finance Code; and

- (1) a daily report of the aggregate ledger balance of deposits of public agencies participating in the pooled collateral program that are held by the institution, with each public entity's funds held itemized;
- (2) a weekly summary report of the total market value of securities held by a custodian trustee on behalf of the participating institution;
- (3) a monthly report listing the collateral securities held by a custodian trustee on behalf of the participating institution, together with the value of the securities; and

(b) The comptroller shall provide the participating institution an acknowledgment of each report received.

Sec. 2257.106. ANNUAL ASSESSMENT. (a) Once each state fiscal year, the comptroller shall impose against each participating institution an assessment in an amount sufficient to pay the costs of administering this subchapter. The amount of an assessment must be based on factors that include the number of public entity accounts a participating institution maintains, the number of transactions a participating institution conducts, and the aggregate average weekly deposit amounts during that state fiscal year of each participating institution's deposits of public funds collateralized under this subchapter. The comptroller by rule shall establish the formula for determining the amount of the assessments imposed under this subsection.

(b) The comptroller shall provide to each participating institution a notice of the amount of the assessment against the institution.

(b) The comptroller may impose an administrative penalty against a participating institution that does not maintain collateral in an amount and in the manner required by Section 2257.104 and rules of the comptroller if the participating institution has not remedied the violation before the third business day after the date a notice is issued under Subsection (a).

Sec. 2257.110. PENALTY AMOUNT; PENALTIES NOT EXCLUSIVE. (a) The comptroller by rule shall adopt a formula for determining the amount of a penalty under this subchapter. For each violation and for each day of a continuing violation, a penalty must be at least \$100 per day and not more than \$1,000 per day. The penalty must be based on factors that include:

(1) the aggregate average weekly deposit amounts during the state fiscal year of the institution's deposits of public funds;

(2) the number of violations by the institution during the state fiscal year;

(3) the number of days of a continuing violation; and

(4) the average asset base of the institution as reported on the institution's year-end report of condition.

A participating institution that cannot afford to pay the penalty or file the bond may stay the enforcement by filing an affidavit in the

manner required by the Texas Rules of Civil Procedure for a party who cannot afford to file security for costs, subject to the right of the comptroller to contest the affidavit as provided by those rules.
